10. ACKNOWLEDGEMENTS

This work was supported by the Assistant Secretary for Energy Efficiency and Renewable Energy, Office of Building Technology, State and Community Programs, Office of Building Systems of the U.S. Department of Energy under Contract No. DE-AC03-76SF00098. The program authors wish to thank the window manufacturers who supplied data on their products for use in the program; Ken Nittler, Jeff Baker, and Ross DePaola of WestLab for their review of pre-release versions; Mark Shephard, Mark Beall, and Scientific Computation Research Center (SCOREC) at Rensselaer Polytechnic Institute for their contribution to the mesh generation and error estimation algorithms in the program; Art Shapiro of Lawrence Livermore National Laboratory for his help in modifying TOPAZ2D for use with THERM; Brent Griffith and Christian Kohler for debugging and testing the program; Nan Wishner for her time and effort editing this document; and Pat Ross for all her many daily contributions including the final production of the program and manual.
